

The Evolution of Luxury Eco-Adventure®

The family adventure of a lifetime with Pikaia Lodge

Keeping the whole family happy on vacation is a challenge that is easily met in the Galapagos. This vast archipelago offers a wealth of opportunities for children and adults alike - from beautiful beaches and dramatic volcanic landscapes to unique wildlife above and below water.

Whether you are viewing sea lions resting under the scorching afternoon sun, marveling at the giant tortoises or simply playing catch on the beach, the family will unquestionably have a holiday of a lifetime in the Galapagos.

To ensure the family enjoys the experience to the fullest Pikaia Lodge suggests babies and toddlers wait a few years before visiting. Children over 8 years old and teenagers are best suited to our expeditions because they need to be confident hikers and swimmers to get the best out of the islands. To ensure families enjoy their holiday to the maximum, we have thus taken care of all the operational details: spacious rooms, delicious food, fascinating excursions and itineraries which balance action with relaxation.

Our resort is conceived as a center for adventurous and educational experiences. We take pride in enabling guests to escape and be mesmerized by the islands' sights and sounds, but also we educate them on the archipelago's unique ecosystem. Guests return home re-energized and with a deeper understanding of nature, science and sustainability. Who knows? A holiday in the Galapagos islands could inspire your children to follow in Charles Darwin's footsteps!

Pikaia Lodge in the highlands of the island of Santa Cruz is a unique environmentally conscious way to experience the Galapagos Islands, offering adventurous land-based tours that are the last word in luxury while preserving the unique eco-system of the archipelago that inspired Charles Darwin's theory of evolution.
