

RENOVATIONS

Puente Romano Beach Resort & Spa, Marbella, member of "Leading Hotels of the World", has been renovating its facilities and leisure areas at the resort for three consecutive years. Millions have been invested in this exciting project since its inception in 2013. These major improvements allow this resort to proudly position itself among the best luxury resorts in Europe.

Right now, the resort offers an extensive range of cuisine, boasting 9 restaurants showcasing the best food from all over the world. Enjoy international flavours at Sea Grill, or more local Mediterranean dishes at **Del Mar**. Travel further afield sampling the best Thai cuisine at **Thai Gallery**, famous Italian food at **Serafina**, or the nikkei cuisine (a fusion of Peruvian and Japanese influences) at **UNI**. The French Patisserie, **Les Deux**, will delight those with a sweet tooth, and the most avant-garde cuisine can be sampled at **Bibo**, 2-Michelin star chef **Dani Garcia's** most casual restaurant yet. Those looking for a healthier, gluten-free option can enjoy **Celicioso** or the organic cuisine of **Rachel's**, as this resort strives to cater for all tastes and diets.

The finishing touch to this gastronomic paradise comes with the creation of La Plaza. An enchanting square, surrounded by lights which illuminate the Roman Bridge, where a wide range of the cuisine on offer is brought together in a peaceful setting to be enjoyed with live music in the pleasant temperatures of the unique Marbella climate.

The opening of the Spa, in July 2015, was one of the key parts to this great renovation project. It completes the health and wellness features of this resort and converts Puente Romano Beach Resort & Spa into a luxury holiday destination in itself.

The last phase of this refurbishment has been finished within the first quarter of 2016, and has involved new additions that we will be detailing below, like new rooms, meeting rooms, new services and a new night club.
