SPORTS AND RECREATION:

GOLF:

Turnberry Isle's two Raymond Floyd-redesigned championship-caliber golf courses have both gone through more than \$45 million in renovations changing the landscape of Florida golf. The South Course's (Soffer) debut was December 2006 and the North (Miller) opened in December 2007. Originally designed by Robert Trent Jones, Sr., both courses offer lush, tropical grounds accentuated with a variety of elevation changes, contoured fairways, sharp changes within holes and strategically placed water features. Varied flora and trees indigenous to Florida's tropical climate create an oasis-like feel throughout the courses giving nearly each hole a private feel, with more than \$100,000 in landscaping spent on each hole of play. Occasionally, a beautiful statue can be found nestled within the foliage, reminding golfers that beauty surrounds them at every turn.

The resort's courses are home to hundreds of birds who continue to call Turnberry home. Special nesting areas have been positioned throughout the courses. Even a separate "Flamingo Island" was built within Lake Julius, the largest and deepest body of water at the resort named after Golf Hall of Famer and former Golf Director Julius Boros. The Island ensures resident Flamingoes are able to nest and nurture their young in a natural environment.

The courses vibrant hues accentuated by the Paspalum Sea Dwarf grass that stays green year round is offset by the many lakes, brilliant flowers, white sand bunkers and lush foliage, all creating a golfer's dream destination.

TENNIS:

Turnberry Isle Miami is affiliated with the elite Cañas Tennis directed by Guillermo Cañas, one of the world's most recognizable tennis players who ranked #8 on the ATP tour. Facilities include a state-of-the-art tennis center featuring four clay HydroCourts lit up at night, a Tennis Shop as well as eight additional courts at its Turnberry Marina. Courts are self-irrigating and host players of all levels. Daily clinics, private lessons and corporate packages are available.
